Net Metering Checklist

Please initial below acknowledging your understanding and acceptance of each item.

1. _____ I have read and understand the Idaho Falls Power Service Policy – VII. CUSTOMER GENERATION. https://bit.ly/4k4Jajj
2. _____ I understand that Idaho Falls Power's Distributed Generation / Net Metering program is intended to offset on-site electrical consumption and that system sizing may not exceed the previous 12 months of usage unless otherwise approved by Idaho Falls Power.
3. _____ I understand that when my generation exceeds my consumption during a billing cycle, Idaho Falls Power purchases excess energy at the current fluctuating market rate, not the retail electric rate.
4. _____ Any electricity generated in excess of your usage is not banked or carried forward as a future credit.
5. _____ I understand that Idaho Falls Power may change rates, policies, interconnection requirements, or compensation structures in the future.
6. _____ I understand I remain responsible for all applicable monthly customer/service charges regardless of energy production.
7. _____ I understand that approval from Idaho Falls Power does not guarantee system performance, savings, or financial payback.
8. _____ I understand all permits, inspections, and interconnection approvals must be completed prior to system operation.

Idaho Falls Power is not responsible or liable for any representations, promises, guarantees, or statements made by solar contractors, sales representatives, or other third parties regarding Idaho Falls Power rates, net metering, energy credits, system performance, or potential savings. Customers should verify all information regarding Idaho Falls Power policies, rates, and requirements directly with Idaho Falls Power before entering into a solar installation agreement, or any other agreement with a third party vendor of power generating equipment. For questions, contact Idaho Falls Power at (208) 612-8430.
